The Journal of Infectious Diseases

VOLUME 92, JANUARY–JUNE, 1953

TABLE OF CONTENTS

No. 1, JANUARY–FEBRUARY, 1953

PAGE

SHOZO INOKI AND YOSHIO HAMADA. Experimental transmission of *Trichomonas vaginalis* (pure culture) into mice 1

R. BARCLAY MCGHEE. The influence of age of the animal upon the susceptibility of mammalian erythrocytes to infection by the avian malaria parasite *Plasmodium lophurae* 4

STEWART A. KOSER AND ELEANOR A. HODGES. The effect of sodium copper chlorophyllin on growth and acid production of some oral bacteria 10

WALTER J. NICKERSON AND ZBIGNIEW MANKOWSKI. A polysaccharide medium of known composition favoring chlamydospore formation in *Candida albicans* 20

LOIS M. JONES. Further studies of the pathogenicity and immunogenicity of mucoid variants of *Brucella abortus* for guinea pigs 26

MARY C. DUNN AND PAUL E. THOMPSON. Chemotherapy of experimental leptospirosis with chloramphenical (Chloromycetin), subtilin and penicillin G. 33

PAUL E. THOMPSON, J. W. REINERTSON, ANITA BAYLES AND ALEXANDER M. MOORE. The curative action of antimalarial drugs against *Plasmodium lophurae* in chicks 40

IRVING G. KAGAN AND CHANG-LING LEE. Duration of acquired immunity of *Schistosomatium douthitti* infections in mice following treatment 52

GEORGE J. KASAI. Growth response of microorganisms to vitamins at different temperatures 58

WALTER L. BLOOM, PAUL C. HUDGINS, AND MARTIN M. CUMMINGS. Tuberculostatic substances extracted from normal rat spleen 70

ELERY R. BECKER AND THOMAS M. SCHWINK. The nature of the sparing phenomenon. II. Activity in vivo and nature of the sparing substance 74

GEORGE C. COZAD AND MICHAEL L. FURCOLOW. Laboratory studies of *Histoplasma capsulatum*. II. Size of the spores 77

J. R. BATTISTO, R. B. PRINGLE, AND W. J. NUNGESTER. The effect of ultraviolet irradiation on immune serum 85

ELIZABETH H. THOMAS, JOHN BOZICEVICH, AND HELEN M. HOYEM. Flocculation reactions in rabbits experimentally infected with *Trichinella spiralis* 89

IRA SINGER. The effect of X irradiation on infections with *Plasmodium berghei* in the white mouse 97

No. 2, MARCH–APRIL, 1953

JACK D. TINER. The migration, distribution in the brain, and growth of ascarid larvae in rodents 105

J. F. A. SPRENT. On the migratory behavior of the larvae of various ascaris species in white mice 114

LOUISE T. MILLER AND HARRY A. FELDMAN. Incidence of antibodies for toxoplasma among various animal species 118

PAGE

NED B. WILLIAMS, ROBERT F. NORRIS, AND PAUL GYÖRGY. Antigenic and cultural relationships of *Lactobacillus bifidus* and *Lactobacillus parabifidus*... 121

ELEANOR JOHNSON TOBIE AND THEODOR VON BRAND. The development of arsenic resistance in *Trypanosoma gambiense* and its influence on parasitemia. 132

L. W. SLANETZ AND CLARA G. BARTLEY. The diagnosis of staphylococcal mastitis, with special reference to the characteristics of mastitis staphylococci.. 139

WILLIAM BURROWS. Studies on immunity to Asiatic cholera. VI. Observations on the relation of antibody to effective immunity to experimental enteric cholera, with a note on sulfonamide therapy..... 152

WILLIAM BURROWS AND LAWRENCE L. WARE. Studies on immunity to Asiatic cholera. VII. Prophylactic immunity to experimental enteric cholera..... 164

E. UPTON, R. P. HANSON, D. DOW, AND C. A. BRANDLY. Studies on intracerebral inoculation of Newcastle disease virus (NDV) into mice. I. Reponse of weanling mice to 25 strains of NDV..... 175

J. E. TARBET AND A. M. BRESLAU. Histochemical investigation of the spherule of *Coccidioides immitis* in relation to host reaction..... 183

WILLIAM CANTRELL. The effect of mapharsen on the glucose metabolism of *Trypanosoma equiperdum*..... 191

LOLITA PANNELL AND CORA M. DOWNS. Studies on the pathogenesis and immunity of tularemia. I. The demonstration of a protective antibody in mouse serum..... 195

NO. 3, MAY–JUNE, 1953

AVIVAH ZUCKERMAN. Residual immunity following radical cure of *Plasmodium berghei* in intact and splenectomized voles (*Microtus guentheri*)..... 205

THOMAS M. FLOYD, JOSEPH R. BARANSKI, AND MOHAMED EL-GANNANI. Recovery of human enteric pathogens on meat from butcher shops in Cairo, Egypt 224

I. L. SHECHMEISTER AND F. L. ADLER. Activation of pseudotuberculosis in mice exposed to sublethal total body radiation..... 228

FRANK M. GOGOLAK. A quantitative study of the infectivity of murine pneumonitis virus in mice infected in a cloud chamber of improved design.... 240

FRANK M. GOGOLAK. Purification of murine pneumonitis virus from mouse lung 248

FRANK M. GOGOLAK. The histopathology of murine pneumonitis infection and the growth of the virus in the mouse lung..... 254

F. R. MCCRUMB, JR., A. LARSON, AND K. F. MEYER. The chemotherapy of experimental plague in the primate host..... 273

DAVID W. TALMAGE AND PAUL H. MAURER. I^{131}-labelled antigen precipitation as a measure of quantity and quality of antibody..... 288

GENERAL INDEX, VOLUME 92, NO. 1, 2, AND 3 (1953)

Adler, F. L.: Activation of pseudotuberculosis in mice exposed to sublethal total body radiation, 228
Ascaris, The migration, distribution in the brain, and growth of ascarid larvae in rodents, 105
On the migratory behavior of the larvae of various ascaris species in white mice, 114
Asiatic cholera, Studies on immunity to, 152, 164

Baranski, Joseph R.: Recovery of human enteric pathogens on meat from butcher shops in Cairo, Egypt, 224
Bartley, Clara H.: The diagnosis of staphylococcal mastitis, with special reference to the characteristics of mastitis staphylococci, 139
Battisto, J. R.: The effect of ultraviolet irradiation on immune serum, 85
Bayles, Anita: The curative action of antimalarial drugs against *Plasmodium lophurae* in chicks, 40
Becker, Elery R.: The nature of the sparing phenomenon.
II. Activity in vivo and nature of the sparing substance, 74
Bloom, Walter L.: Tuberculostatic substances extracted from normal rat spleen, 70
Bozicevich, John: Flocculation reactions in rabbits experimentally infected with *Trichinella spiralis*, 89
Brandly, C. A.: Studies on intracerebral inoculation of Newcastle disease virus (NDV) into mice.
I. Response of weanling mice to 25 strains of NDV, 175
Breslau, A. M.: Histochemical investigation of the spherule of *Coccidioides immitis* in relation to host reaction, 183
Brucella abortus, Further studies of the pathogenicity and immunogenicity of mucoid variants of, for guinea pigs, 26
Burrows, William: Studies on immunity to Asiatic cholera.
VI. Observations on the relation of antibody to effective immunity to experimental enteric cholera, with a note on sulfonamide therapy, 152
VII. Prophylactic immunity to experimental enteric cholera, 164

Candida albicans, A polysaccharide medium of known composition favoring chlamydospore formation in, 20
Cantrell, William: The effect of mapharsen on the glucose metabolism of *Trypanosoma equiperdum*, 191
Chloramphenicol, Chemotherapy of experimental leptospirosis with chloramphenicol, subtilin, and penicillin G, 33
Chlorophyllin, The effect of sodium copper chlorophyllin on growth and acid production of some oral bacteria, 10
Cloud chamber, A quantitative study of the infectivity of murine pneumonitis virus in mice infected in a cloud chamber of improved design, 240
Coccidioides immitis, Histochemical investigation of the spherule of, in relation to host reaction, 183
Cozad, George C.: Laboratory studies of *Histoplasma capsulatum*.
II. Size of the spores, 77
Cummings, Martin M.: Tuberculostatic substances extracted from normal rat spleen, 70

Dow, D.: Studies on intracerebral inoculation of Newcastle disease virus (NDV) into mice.
I. Response of weanling mice to 25 strains of NDV, 175
Downs, Cora M.: Studies on the pathogenesis and immunity of tularemia.
I. The demonstration of a protective antibody in mouse serum, 195
Dunn, Mary C.: Chemotherapy of experimental leptospirosis with chloramphenicol (Chloromycetin), subtilin and penicillin G, 33

El-Gannani, Mohamed: Recovery of human enteric pathogens on meat from butcher shops in Cairo, Egypt, 224
Enteric pathogens, Recovery of human enteric pathogens on meat from butcher shops in Cairo, Egypt, 224

Feldman, Harry A.: Incidence of antibodies for toxoplasma among various animal species, 118
Floyd, Thomas M.: Recovery of human enteric pathogens on meat from butcher shops in Cairo, Egypt, 224
Furcolow, Michael L.: Laboratory studies of *Histoplasma capsulatum*.
II. Size of the spores, 77

Gogolak, Frank M.: A quantitative study of the infectivity of murine pneumonitis virus in mice infected in a cloud chamber of improved design, 240
Purification of murine pneumonitis virus from mouse lung, 248
The histopathology of murine pneumonitis infection and the growth of the virus in the mouse lung, 254
György, Paul: Antigenic and cultural relationships of *Lactobacillus bifidus* and *Lactobacillus parabifidus*, 121

Hamada, Yoshio: Experimental transmission of *Trichomonas vaginalis* (pure culture) into mice, 1
Hanson, R. P.: Studies on intracerebral inoculation of Newcastle disease virus (NDV) into mice.
I. Response of weanling mice to 25 strains of NDV, 175
Histoplasma capsulatum, Laboratory studies of, 77
Hodges, Eleanor A.: The effect of sodium copper chlorophyllin on growth and acid production of some oral bacteria, 10
Hoyem, Helen M.: Flocculation reactions in rabbits experimentally infected with *Trichinella spiralis*, 89
Hudgins, Paul C.: Tuberculostatic substances extracted from normal rat spleen, 70

Inoki, Shozo: Experimental transmission of *Trichomonas vaginalis* (pure culture) into mice, 1

Jones, Lois M.: Further studies of the pathogenicity and immunogenicity of mucoid variants of *Brucella abortus* for guinea pigs, 26

Kagan, Irving G.: Duration of acquired immunity of *Schistosomatium douthitti* infections in mice following treatment, 52
Kasai, George J.: Growth response of microorganisms to vitamins at different temperatures, 58
Koser, Stewart A.: The effect of sodium copper chlorophyllin on growth and acid production of some oral bacteria, 10

Labelled antigen, I^{131}-labelled antigen precipitation as a measure of quantity and quality of antibody, 288
Lactobacillus, Antigenic and cultural relationships of *L. bifidus* and *L. parabifidus*, 121
Larson, A.: The chemotherapy of experimental plague in the primate host, 273
Lee, Chang-Ling: Duration of acquired immunity of *Schistosomatium douthitti* infections in mice following treatment, 52
Leptospirosis, Chemotherapy of experimental leptospirosis with chloramphenicol, subtilin, and penicillin G, 33

Malaria, The influence of age of the animal upon the susceptibility of mammalian erythrocytes to infection by the avian malaria parasite *Plasmodium lophurae*, 4
The curative action of antimalarial drugs against *Plasmodium lophurae* in chicks, 40
Mankowski, Zbigniew: A polysaccharide medium of known composition favoring chlamydospore formation in *Candida albicans*, 20
Maurer, Paul H.: I^{131}-labelled antigen precipitation as a measure of quantity and quality of antibody, 288
McCrumb, F. R., Jr.: The chemotherapy of experimental plague in the primate host, 273
McGhee, R. Barclay: The influence of age of the animal upon the susceptibility of mammalian erythrocytes to infection by the avian malaria parasite *Plasmodium lophurae*, 4
Meyer, K. F.: The chemotherapy of experimental plague in the primate host, 273
Miller, Louise T.: Incidence of antibodies for toxoplasma among various animal species, 118
Moore, Alexander M.: The curative action of antimalarial drugs against *Plasmodium lophurae* in chicks, 40

Newcastle disease virus, Studies on intracerebral inoculation of, into mice, 175
Nickerson, Walter J.: A polysaccharide medium of known composition favoring chlamydospore formation in *Candida albicans*, 20
Norris, Robert F.: Antigenic and cultural relationships of *Lactobacillus bifidus* and *Lactobacillus parabifidus*, 121
Nungester, W. J.: The effect of ultraviolet irradiation on immune serum, 85

Oral bacteria, The effect of sodium copper chlorophyllin on growth and acid production of some oral bacteria, 10

Pannell, Lolita: Studies on the pathogenesis and immunity of tularemia.
I. The demonstration of a protective antibody in mouse serum, 195
Penicillin G, Chemotherapy of experimental leptospirosis with chloramphenicol, subtilin and, 33
Plague, The chemotherapy of experimental plague in the primate host, 273
Plasmodium berghei, The effect of X irradiation on infections with, in the white mouse, 97
Residual immunity following radical cure of, in intact and splenectomized voles, 204

Plasmodium lophurae, The influence of age of the animal upon the susceptibility of mammalian erythrocytes to infection by the avian malaria parasite *P. lophurae*, 4
The curative action of antimalarial drugs against, in chicks, 40
Pneumonitis, A quantitative study of the infectivity of murine pneumonitis virus in mice infected in a cloud chamber of improved design, 240
Purification of murine pneumonitis virus from mouse lung, 248
The histopathology of murine pneumonitis infection and the growth of the virus in the mouse lung, 254
Pringle, R. B.: The effect of ultraviolet irradiation on immune serum, 85

Reinertson, J. W.: The curative action of antimalarial drugs against *Plasmodium lophurae* in chicks, 40

Schistosomatium douthitti, Duration of acquired immunity of *S. douthitti* infections in mice following treatment, 52
Schwink, Thomas M.: The nature of the sparing phenomenon,
II. Activity in vivo and nature of the sparing substance, 74
Shechmeister, I. L.: Activation of pseudotuberculosis in mice exposed to sublethal total body radiation, 228
Singer, Ira: The effect of X irradiation on infections with *Plasmodium berghei* in the white mouse, 97
Slanetz, L. W.: The diagnosis of staphylococcal mastitis, with special reference to the characteristics of mastitis staphylococci, 139
Sparing phenomenon, The nature of the, 74
Sprent, J. F. A.: On the migratory behavior of the larvae of various ascaris species in white mice, 114
Staphylococci, The diagnosis of staphylococcal mastitis, with special reference to the characteristics of mastitis staphylococci, 139
Subtilin, Chemotherapy of experimental leptospirosis with chloramphenicol, subtilin and penicillin G, 33

Talmage, David W.: I^{131}-labelled antigen precipitation as a measure of quantity and quality of antibody, 288
Tarbet, J. E.: Histochemical investigation of the spherule of *Coccidioides immitis* in relation to host reaction, 183
Thomas, Elizabeth H.: Flocculation reactions in rabbits experimentally infected with *Trichinella spiralis*, 89
Thompson, Paul E.: Chemotherapy of experimental leptospirosis with chloramphenicol (Chloromycetin), subtilin and penicillin G, 33
The curative action of antimalarial drugs against *Plasmodium lophurae* in chicks, 40
Tiner, Jack D.: The migration, distribution in the brain, and growth of ascarid larvae in rodents, 105
Tobie, Eleanor Johnson: The development of arsenic resistance in *Trypanosoma gambiense* and its influence on parasitemia, 132
Toxoplasma, Incidence of antibodies for, among various animal species, 118
Trichinella spiralis, Flocculation reactions in rabbits experimentally infected with, 89
Trichomonas vaginalis, Experimental transmission of, into mice, 1
Trypanosoma equiperdum, The effect of mapharsen on the glucose metabolism of, 191
Trypanosoma gambiense, The development of arsenic resistance in, and its influence on parasitemia, 132
Tuberculosis, Tuberculostatic substances extracted from normal rat spleen, 70
Activation of pseudotuberculosis in mice exposed to sublethal total body radiation, 228
Tularemia, Studies on the pathogenesis and immunity of, 195

Ultraviolet, The effect of ultraviolet irradiation on immune serum, 85
Upton, E.: Studies on intracerebral inoculation of Newcastle disease virus (NDV) into mice.
I. Response of weanling mice to 25 strains of NDV, 175

Vitamins, Growth response of microorganisms to, at different temperatures, 58
von Brand, Theodor: The development of arsenic resistance in *Trypanosoma gambiense* and its influence on parasitemia, 132

Ware, Lawrence L.: Studies on immunity to Asiatic cholera.
VII. Prophylactic immunity to experimental enteric cholera, 164
Williams, Ned B.: Antigenic and cultural relationships of *Lactobacillus bifidus* and *Lactobacillus parabifidus*, 121

X rays, The effect of X irradiation on infections with *Plasmodium berghei* in the white mouse, 97
Activation of pseudotuberculosis in mice exposed to sublethal total body radiation, 228

Zuckerman, Avivah: Residual immunity following radical cure of *Plasmodium berghei* in intact and splenectomized voles (*Microtus guentheri*), 205

The Journal of Infectious Diseases

Founded 1904 by the John Rockefeller McCormick Memorial Institute for Infectious Diseases
under the Editorship of LUDVIG HEKTOEN and EDWIN O. JORDAN

The Journal of Infectious Diseases

VOLUME 93, JULY–DECEMBER, 1953

TABLE OF CONTENTS

No. 1, JULY–AUGUST, 1953

PAGE

JOHN E. BLAIR AND MIRIAM CARR. The bacteriophage typing of staphylococci. 1

MARY D. LACKEY, PETER L. EICHMAN, AND W. PAUL HAVENS, JR. Hepatitis in laboratory mice. 14

BYRON H. WAKSMAN AND RAYMOND D. ADAMS. Tubercle bacillus lipopolysaccharide as adjuvant in the production of experimental allergic encephalomyelitis in rabbits. 21

LEON LIBENSON, FAITH P. HADLEY, ALICE P. MCILROY, VERNA M. WETZEL, AND RALPH R. MELLON. Antibacterial effect of elemental sulfur. 28

SANFORD S. ELBERG AND PATRICIA SCHNEIDER. Directed leucocyte migration in response to infection and other stimuli. 36

WALTER J. NICKERSON. Reduction of inorganic substances by yeasts. I. Extracellular reduction of sulfite by species of *Candida*. 43

ROBERT W. QUINN, C. V. SEASTONE, AND R. W. WEBER. The relationship of the antigenic characteristics of streptococci and specific antibody responses following streptococcal infections. 57

BROOKS D. CHURCH AND CLAYTON G. LOOSLI. The role of the laundry in the recontamination of washed bedding. 65

L. JOE BERRY AND ROLAND B. MITCHELL. The relation of the tricarboxylic acid cycle to bacterial infection. I. The effect of malonate on *Salmonella typhimurium* infections in mice. 75

L. JOE BERRY AND ROLAND B. MITCHELL. The relation of the tricarboxylic acid cycle to bacterial infection. II. The effect of fluoroacetate, arsenite, citrate, and succinate on *Salmonella typhimurium* infections in mice. 83

H. P. LAMBERT, H. SMITH, AND JOAN RICHLEY. The action of mucin in promoting infections: the effect of a previous injection of mucin and of α-tocopherol in peanut oil. 93

JOSEPH GREENBERG, ELI M. NADEL, AND G. ROBERT COATNEY. The influence of strain, sex and age of mice on infection with *Plasmodium berghei*. 96

MOISES AGOSIN AND THEODOR VON BRAND. Studies on the respiratory metabolism of *Balantidium coli*. 101

KEITH E. JENSEN. Immunologic characterization of a mucinolytic enzyme of *Vibrio cholerae*. 107

No. 2, SEPTEMBER–OCTOBER, 1953

F. G. NOVY, W. A. PERKINS, R. CHAMBERS, AND P. H. DE KRUIF. The rat virus 111

RUSSELL T. JORDAN, W. J. NUNGESTER, AND W. S. PRESTON. Recovery of the Novy rat virus. 124

ABRAM B. STAVITSKY. The influence of adrenal cortical extract on antibody formation, including the nonspecific anamnestic reaction in the rabbit. 130

JAMES W. MOULDER, BETTY R. S. MCCORMACK, AND MARGARET K. ITATANI. Energy requirements for synthesis of feline pneumonitis virus in isolated chick embryo yolk sac. 140

STANLEY A. ZAHLER. The effects of feline pneumonitis virus infection on the phosphorus metabolism of chick embryo yolk sac. 150

PAGE

STANLEY A. ZAHLER AND JAMES W. MOULDER. The incorporation of radioactive phosphate into feline pneumonitis virus in the chick embryo yolk sac.... 159

BJÖRN SIGURDSSON, PÁLL A. PÁLSSON, AND ANNA TRYGGVADÓTTIR. Transmission experiments with maedi..... 166

DAVID W. TALMAGE AND FRANK J. DIXON. The influence of adjuvants on the elimination of soluble protein antigens and the associated antibody responses 176

E. H. KELLY, ARTHUR N. GORELICK, SIDNEY J. SILVERMAN, AND WERNER BRAUN. Further studies on superinfection in experimental cavine brucellosis. I. Early superinfection..... 181

E. H. KELLY, ARTHUR N. GORELICK, SIDNEY J. SILVERMAN, AND WERNER BRAUN. Further studies on superinfection in experimental cavine brucellosis. II. The effects of different combinations of *Brucella* species..... 187

STEWART A. KOSER AND JOAN L. THOMAS. Activity of some vitamin derivatives and related compounds for oral lactobacilli..... 192

IRVING G. KAGAN. Experimental infections of rhesus monkeys with *Schistosomatium douthitti* (Cort, 1914)..... 200

No. 3, NOVEMBER–DECEMBER, 1953

H. BERNKOPF, S. LEVINE, AND R. NERSON. Isolation of West Nile virus in Israel 207

WILLIAM CANTRELL. Diminished P^{32} assimilation by *Trypanosoma equiperdum* in the rat late in the infection..... 219

JERRY K. AIKAWA AND GEORGE T. HARRELL. Isotopic studies of fluid and electrolyte changes in domestic rabbits with Rocky Mountain spotted fever. 222

WARREN C. EVELAND AND JOHN E. FABER, JR. Antigenic studies of a group of paracolon bacteria (32011 group)..... 226

A. HOWARD FIELDSTEEL AND WILLIAM S. PRESTON. The effect of meningopneumonitis virus infection on glycolysis by mouse and rat brain..... 236

E. STATEN WYNNE AND JAMES O. NORMAN. On the concept of "Direct antagonism" in bacteria..... 243

C. OLSON, JR., C. L. ROLLINS, V. BAGDONAS, I. C. BLORE, AND D. SEGRE. Distribution of *Listeria monocytogenes* in listeriosis of sheep..... 247

EDWARD S. JOSEPHSON, D. JANE TAYLOR, JOSEPH GREENBERG, AND G. ROBERT COATNEY. Further studies on the effect of antimalarial drugs against erythrocytic forms of *Plasmodium gallinaceum* in vitro..... 257

JERRY K. AIKAWA AND GEORGE T. HARRELL. Changes in the tissue radiosodium space associated with experimental Rocky Mountain spotted fever in guinea pigs..... 263

P. W. ENSMINGER, C. G. CULBERTSON, AND H. M. POWELL. Antigenic *Hemophilus pertussis* vaccines grown on charcoal agar..... 266

MONROE D. EATON AND MAUDE E. PERRY. Further observations on the effect of 2,4-dinitrophenol on the growth of influenza virus..... 269

WALTER J. NICKERSON, JOSEPH R. MERKEL, AND FREDY ROLAND. Antibacterial action of an enediol (reductone)..... 278

JOHN E. LARSH, JR. Studies in old mice to test the hypotheses of local and general immunity to *Trichinella spiralis*..... 282

WILLIAM L. POND, SUDIE B. RUSS, AND JOEL WARREN. The Russian spring-summer encephalitis and louping ill group of viruses; relationship of European and Asiatic strains of Russian spring-summer encephalitis viruses and louping ill virus..... 294
